WALLED LAKE QUEEN

Dam and Grand Dam of many of the cows in this herd.

No. 5972 H. F. H. B. Calved April 25, 1886.

Sire—Ykema, No. 214 F. H. B.; No. 322 D. F. H. B.

Dam—Antje 2d. No. 1516 H. F. H. B.

Description.—Weight, 1525 lbs., in show condition; ideal dairy form; wedge shape; head proportionate, clean cut, very symmetrical; forehead slightly dishing; face straight, very long; muzzle large, very broad; ears medium size, fine texture; eyes very large, prominent and wide apart; horns long, slim and waxy; neck medium; shoulders broad, slightly lower than hips; chest good depth and lowness; chine double, very open, very broad and straight; barrel wedge shape with large abdomen and ribs well sprung and wide apart; loin and hips very strong, very broad, slightly rounded; rump long, high, fairly level; thurl high and broad; quarters deep, very broad and fairly straight behind; flanks high and arched; thighs incurving; legs comparatively short, clean and wide apart; tail large at setting, long and tapering, end reaching below the hocks; hair, skin and handling superior; secretions very oily, very yellow, very abundant; mamery veins long, very large, double extension and branches; double milk orifices on both sides; udder extra large, extending well forward, very soft, very elastic, teats four, perfect and well placed; escutcheon very best; no defect; no blemish; perfectly kind and gentle; easy milker; general appearance and proportions very fine, grand and stylish.

Remarks.—In 1893, at the World's Fair at Chicago, Ill., Walled Lake Queen won First Prize in class of four years old or over, and Sweepstakes Prize of Gold Medal in class of any age. She was First Prize cow at the Michigan State Fair in 1889-90-91-92 and '94; First Prize cow at the great Detroit International Fair and Exposition in 1889-90-91 and '92; First Prize cow at the West Michigan Agricultural and Industrial Society in 1892, and First Prize cow at the Northeastern Agricultural Society at Saginaw, Mich., in 1889 and '90. She is a long, deep, persistent milker, a regular breeder, and has extra fine, large heifer calves, never having had but one bull calf—Aug. 19, 1895. On that date her udder measured—a few hours after calving—81 inches in circumference. She was milked straight through to her next calf, Aug. 16, 1896—363 days—and gave 18,513 lbs. of milk. In one day (24 hours)—Sept. 15, 1895—she gave 93 lbs. Her milk was tested by the Michigan Experiment Station, on Jan. 7, 1898, and showed 3 7-10 per cent. pure butter fat.

Dear Sir -!

Yours of Sept. 20th. with Bun Pr. cent of 1877 is received and noted - and in reply would say that you will kindly have included the 2 cts. to pay for the cent [illegible] date, I would like to see the 1806 [illegible] Cent [illegible] of the [illegible] $12 [illegible] you may send it by mail to my expense if you wish. I do not quite understand your meaning of the [illegible] in your letter [illegible] "Let us know and we will send it to you but there will be no time to get to it". What is the Wilcox collection? [illegible] at private sale or is it one you [illegible] to sell at Auction sale? [illegible] and [illegible] get it for what it is worth. Don't send the cent until next Saturday, as I [illegible] until next week [illegible]

[illegible] during my absence.
Hoping to hear from you soon — I remain —

Very truly yours,
B. F. [illegible].

Dear Sirs -:

Yours of Dec. 22d. is received and noted and in reply would kindly say that after waiting several weeks in order to hear from you I had a dealer in Pittsburg - Pa. (with whom I had had previous satisfactory dealings) fill a part of my order, but I still lack a large number of the rare pieces of U. S. coins and will soon send you a different order. The Pittsburg dealer offered me the 1873 and 1883 Trade dollar at $1.25 each and the complete U. S. Proof set of 1898 at $2.00 (all unstamped and "toned") could you furnish them at same price I'd would include them in my next order? Trusting to hear from you again - I remain -

Yours truly,
